FLHS Science Transition into Grade 9 Through Grade 10
Revised 11/1/19 Subject to Change

***Placement into certain classes is based on pre-requisites. Movement “up” a level (ie: CP to Honors) may require approval from the science supervisor.

Three Years of Lab Science are required for high school graduation. They must address biology, earth, and physical science (including biology and two selections of environmental, geoscience, astronomy, chemistry, physics, and/or physical science, according to various sequences). Based on certain electives, Four Years of Science may be required to meet all these standards.
